Introduction

From the "*Tong Sing*", The Book of Wisdom based on The Ancient Chinese Almanac, the following instruction on how to determine the gender of an unborn baby is given.

--()--

Forecasting a Baby's Gender

The Chinese have a little verse:

*Seven sevens are forty nine:
Add the conception month,
Subtract the mother's age,
And add nineteen.
Odd is a boy, and even is a girl.*

Example - A young woman, age 20, becomes pregnant in August (8th month):

49 start
+8 conception month

=57

-20 young woman's age

=37

+19

=56 the result is an **even number = Girl**

End
