Introduction

The most significant contribution that the o.e.v has made is its custodianship, *from the time from the time before*, of the key of Atlantis.

[Picture Right - The Key of Atlantis]

Following the destruction of Atlantis, the key was hidden; however, there was a prophecy/promise that one day it would be revealed again.

And no longer is the key to be hidden, but is to be placed into the light wherein all who have eyes will see. And those who will see will understand, and those who will understand will remember the things of the former times.

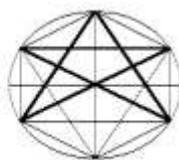

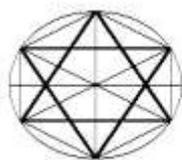

Erecting the Key of Atlantis

The erection of the key of Atlantis is revealed in 'The Fragments and The Shards', and forms the foundation of all o.e.v teaching and initiation. See the Chapter containing ' The Fragments and The Shards'.

22 Paths

The Key of Atlantis describes twenty-two paths that link the individual from the inception of their being to their final unified actualisation.

The Five- and Six-Pointed Stars

When the five-pointed-star that is 'man', joins with the six-pointed-star of 'that which can be', and all exists within the 'six-sided circle of reality', then the key is complete, and the 'portal opens'. Within the key lie the twenty-two paths, and that which is, now grows by that which is not, and secret and purpose are fulfilled. The Sphinx presides upon the key, and judgement determines the way.

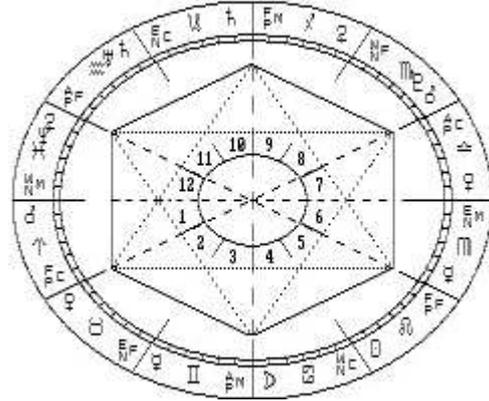

Heavenly Confirmation

It is in the heavens where the key of Atlantis was first immutably cast, and it is there that the individual must seek the answers of his existence.

The erected key opens the 'portal', and through the projection of consciousness, the individual has unlimited access to all things.

He who has eyes to see, let him see...

End
