**When was the world created?**

In 1645 the answer to this question was given.

Dr John Lightfoot (1645) said:

"Heaven and earth, centre and circumference were made in the same instance of time and clouds full of water and man was created by the Trinity on the 26th of October, 4004 B.C., at 9 o'clock in the morning."

There you have it...

End
